

Providing Efficiency and Value for Money through Service Orientated Infrastructures

Prolinx, in partnership with Hewlett Packard invites you to explore innovative approaches to managing IT infrastructure at the University of Birmingham on Tuesday 27th July

As IT departments become subject to evermore demanding expectations against the backdrop of shrinking budgets and resource constraints, Prolinx and Hewlett Packard are delighted to invite you to a seminar exploring how to drive greater efficiency and value for money through service orientated infrastructures.

Topics will include; cost effective approaches to storage planning, achieving greater efficiency through datacentre automation and improving service provision with resilient and dependable, yet affordable backup and disaster recovery solutions.

Agenda:

10:00	Arrive, tea/coffee & registration
10:30	Welcome - HPUG
10:40	An approach to storage planning in the Real World - Prolinx
11:30	Achieving Efficient and Effective Management of your Storage using HP's Automated Storage Resource Management - HP
12:15	An introduction to HP's automation capability; Networks; Datacentre and Client Automation - HP
13:00	Lunch
13:30	Achieving 100% Availability with Automatic Application Failover and Backup for Physical and Virtual Environments - Azlan
14:15	'Why is Infrastructure Converging?' An overview of why the IT industry is changing so quickly and the impact on users - HP
15:00	General Q&A and Summary
15:30	Seminar Ends

To Register:
